Organisational / managerial skills

Leadership:

Currently responsible to organize the work across a team made of 3 developers, either working beside me or remotely.

Job-related skills

Always loved the "problem solving" business. In game, in life and also on work.

I feel good working with other people from any part of the world, just to improve myself learning from them, their way to approach the job.

Digital skills

Digital skills - Self-assessment grid

I've start working in the IT industry since 10+ years.

Before on web app (css/html/javascript/php/mysql), then managing data across multiple enterprise systems with IBM Datastage technology for Mediamarket/Media World company.
Now mostly acting as backend developer and engineer (java/sql/hibernate/git) and sometimes as team leader.

Currently I'm working as backend developer and engineer on a mobile banking project for Mashreq bank, based in Dubai. My main responsibility are to develop all the new backend feature and services, and organize the work across a team made of 3 developers, either working beside me or remotely. I'm used to collect and translate functional requirements into technical tasks to be fulfilled by developers. I supervise software deliveries and quality.

My main skills are:

Object oriented programming, functional programming, backend development, design patterns, distributed systems, testing, automated testing, Java, Java OSGi, Hibernate, Spring, REST and SOAP apis, Relational databases, SQL server, MySQL, Oracle, mobile application development, Xcode, Android Studio, hybrid application development, Linux, versioning tools, Git, SVN, Web Services, Redmine, Skype, Slack.
